

Social Media Management & Marketing

About, Terms & Conditions

A package has been created by combining two types of services: Social Media Management and Social Media Marketing.

Social Media Management: This service includes posting attractive, product-related graphics, video reels, stories, and festival posts on your Facebook and Instagram accounts every month. It helps keep customers informed about your product.

Social Media Marketing: Through advertising on Facebook and Instagram, you can directly reach customers or distributors, allowing you to sell your product online across villages, towns, and states. There are three types of ads you can use for selling products under Social Media Marketing:

- 1) **Send Message:** This ad allows you to have direct WhatsApp conversations with customers and distributors.
- 2) **Order Now/Shop Now:** This ad directs customers to your website, where they can directly purchase the product.
- 3) **Lead Generation:** Through this ad, you can collect customer and distributor information—such as name, phone number, email, and address—to contact them and sell your product.

Important Information:

- We will need your business logo, high-quality product images, contact details, WhatsApp number, and website information.
- To run ads and manage posts, you'll need to make us an admin on your Facebook page and Instagram account.
- After seeing the ads, when a customer contacts you, it is your responsibility to engage with them and sell the product.
- You should know the class, gender, age, and region where your product is most likely to sell.
- Estimated reach, message conversations, website clicks, and lead generation depend on the target audience size (industry, age, locations, gender) and your budget.
- Before starting the campaign, you will be asked to confirm that the graphic/video/content/title and other details are accurate.
- All updates will be provided via email, which will serve as a record.
- There is no refund policy. Sales depend on customer demand and product quality.
- The budget for these packages will be **split 50-50**, where 50% will be spent on graphics, reels, video feeds, and Meta ads, while the remaining 50% will be our fee for designing and managing the campaigns.

Social Media Management & Marketing

Standard Packages

Packages 1-2-3 are designed for businesses aiming to connect with **customers** and **distributors** or **drive product sales** across **villages, small and big cities**. They provide targeted solutions to help you reach diverse audiences effectively, build trust in rural, urban, and regional markets, and showcase your products in a way that appeals directly to the unique preferences of each area.
